

Amendments to the Specification

Please replace the paragraph beginning at page 2, line 19 with the following rewritten paragraph:

Referring now to the drawing, shown therein is a circuit card package, designated generally by the reference numeral 10, constructed in accordance with the principles of this invention. The package 10 includes a circuit card 12 which is adapted for insertion into a card edge connector ~~(not shown)~~ 45 on a backplane ~~(not shown)~~ 46. The circuit card 12 is commonly referred to as a parent card. A substantially planar faceplate bracket 14 is secured orthogonally to the circuit card 12. The faceplate bracket 14 is formed with, illustratively, two openings 16 each for receiving therethrough a respective second type of circuit card 17 in parallel to the circuit card 12. The circuit card 17 is commonly referred to as a child card.
